My Breath.

Shortness of Breath Is One of the Com-monest Signs of Heart Disease.

Notwithstanding what many physicians say, heart disease can be cured. Dr. Miles' New Heart Cure has permanently restored to health many thousands who had found no relief in the medicines (allopathic or homoeopathic) of regular practicing physicians. It has proved itself unique in the history of medicine, by being so uniformly successful in curing these diseases.

Nearly always, one of the first signs of trouble is shortness of breath. Whether it comes as a result of walking or running up stairs, or of other exercises, if the heart is unable to meet this extra demand upon its pumping powers-there is something wrong with it.

The very best thing you can do, is to take Dr. Miles' New Heart Cure. It will go to the foundation of the trouble, and make a permanent cure by strengthening and renewing the nerves. "I know that Dr. Miles' New Heart Cure is a great remedy. For a number of years I suffered from shortness of breath, smothering spells, and pains in my left side. For months at a time I be unable to lie on my left side, and if I lay flat on my back would nearly emother. A friend advised using Dr. Miles' New Heart Cure, which I did with good results. I began to improve at once, and after taking several bottles of the Heart Cure the pains in my side and other symptoms vanished. I am now entirely well. All those dreadful smothering spells are a thing of the past."—F. P. DRAKE, Middletown, O. If the first bottle does not help you, the druggist will refund your money. ative of the Associated Fress at the embassy to-night. The ambassador spoke in general on the far Eastern situation. Although the negotiations on the neutrality proposition have been carried on almost entirely between the several foreign governments addressed and the American envoys accredited to them, the weight of the word of the Russian ambassador at Washington in the counsels of his Majesty was strongly influential in the shaping of Rus-

As soon as the Russian note was addressed to the Russian government Count Cassini was advised of the fac. by Secretary Hay, and a long and earnest conversation followed on the motives of the Washington government in initiating this move, unique in diplomacy. To the frankness of this conversation is targely due, it is said, the prompt response of the Russian government, which is naturally concerned with many matters of the gravest importance, and some demanding the most speedy at-

tention, such as war measures. "It is fortunate," continued the ambassador, "that whatever may be the feeling here and there in the United States of sympathy for Japan, the traditional and, so far as Russia is concerned, the highly prized friendly relations between the Washington and St. Petersburg governments in no way have been interfered with. Every mail brings to the embassy some fifty to one hundred contradictions, in the form of offers of assistance, medical and military, of the statement that Russia is without friends in this country. It is so in this country, as in every other, that the smaller nation in the struggle can count on a certain amount of sympathy, arising solely from the fact of its minority, but it is a tribute to the fairness of your government that the official conduct of your govern-ment certainly has been all that either beligerent could expect in the preservation of the strict neutrality which the President directed shall be observed by his people.
